

FITTING INSTRUCTIONS FOR JENKS' BOLTS OIL FILLER CAP "THUMB BOLT"

Application

Jenks' Bolts Thumb Caps are suitable for all Triumph Bonneville versions from 2001, including the T100, Thruxton, Bonneville America and Speedmaster. The Cap also fits the Triumph "Legend" Series with right hand oil fillers, including the Thunderbird & Adventurer and finally the Triumph Trophy 1200 with black motor.

The cap is available in two finishes: bright nickel plate, to coordinate with chrome, black anodised for bikes with a black engine finish. It can also be supplied to special order only in polished aluminum. The Jenks oil filler cap is machined from billet aluminum and then finished to protect the aluminum and give years of trouble free use

Part Numbers

OCN 01 (Nickel plate - right in photo)
OCB 01 (Black Anodized - left in photo)

The Jenks' Thumb Bolts, on a T100

Black and Nickel Thumb Bolts, with "O" ring

Instructions.

Remove the standard oil filler cap using a coin or broad blade screwdriver. Check the "O" ring is properly seated and then fit the Jenks' Oil Filler Cap, featuring the proven "Jenks' Thumb Bolt" grip! Simply grip and tighten, it couldn't be easier! When re-fitting the Oil Filler Cap be sure to:

- Make sure the "O" ring is properly seated
- Tighten by hand until seated and then one eighth turn: DO NOT OVER TIGHTEN
